RAJKUMAR VENKATESH

ASPIRING SOFTWARE ENGINEER | FULL STACK DEVELOPER

v.rajkumarvenkatesh@gmail.com | +918825694579 | Komarapalayam,TamilNadu

LinkedIn | Github | Portfolio

Career Objective

B.Tech Information Technology student interested in software development and modern web technologies. Experienced in developing academic and personal projects using React.js, Node.js, Express.js, Firebase, Python. Seeking a software development internship to apply technical knowledge, strengthen problem-solving skills, and contribute to practical software solutions.

Education

Bachelor of Technology in Information Technology | 2024-2028

Excel Engineering College, Tamil Nadu, India | CGPA:8.4/10

Higher Secondary Certificate (HSC) | 2023-2024

Government Boys Higher Secondary School - Komarapalayam | Percentage: 69.8%

Secondary School Leaving Certificate (SSLC) | 2022-2023

Government Boys Higher Secondary School - Komarapalayam | Percentage: 58.6%

TechnicalSkills

- Languages: Python, Java, JavaScript, C
- WebTechnologies: HTML, CSS, React.js, Express.js, Node.js, Bootstrap, REST API
- Databases: MongoDB, Firebase
- Tools and Platforms: Visual Studio Code, npm, Docker, Git, GitHub
- Core Computer Science: Data Structures and Algorithms (DSA), Problem-Solving Fundamentals

Projects

1. AI-Powered Student Performance Analytics & Intelligent Career Recommendation System

React.js, Bootstrap, Node.js, Express.js, Firebase, Google Gemini API | In Progress

- Developing an AI-powered platform to analyze student academic performance, technical skills, projects, and career interests.
- Designing personalized career recommendations, skill-gap analysis, and learning roadmaps using AI.
- Integrating Firebase for data management and Google Gemini API for AI-assisted career guidance.

2. Smart Industrial Equipment Maintenance Prediction System

Python, Machine Learning, Data Analytics, MySQL | Working Prototype

- Developed a prototype for managing industrial equipment, maintenance records, and maintenance status.
- Implemented machine management, maintenance logs, and a dashboard to monitor equipment conditions.
- Designed the system to support maintenance tracking and data-driven maintenance decisions.

Achivements

- Built a collection of 30 certificates covering technical learning and professional development.
- Earned 5 HackerRank badges in Python, Problem Solving, Java, and C, demonstrating programming proficiency and logical problem-solving skills.
- Demonstrated proficiency in multiple programming languages, including Python, Java, and C, alongside problem-solving skills.
